ABOUT OUR INSTRUCTORS

Judy Bono has been gardening with native plants for 20 years. She was the co-chair of the Nixon Park Native Plant Sale for 10 years. Judy owns The Gardener of the Owl Valley, a shop that specializes in native plants. Judy consults on native garden development and is an active speaker on native gardening topics.

Deb Carman is a member of the Penn State Master Gardener Class of 2008 and is on the MAEscapes Advisory Board. She has been a volunteer with the Hershey Gardens Butterfly House for 10 years.

Jacquelyn Doyle is the owner and operator of Doyle Farm Nursery, a native plant nursery located in southern York County, PA. She is also a gardener, writer and lecturer.

Tim Falkenstein Tim Falkenstein has a broad professional and educational background in native and exotic plants in the piedmont physiographic region. He has extensive experience in wetland plant ID and ecology, hydric soil identification, and interpretation of wetland hydrologic indicators

Mary Kline is a registered landscape architect who specializes in environmentally sensitive design. She is an original founding partner of MAEscapes and serves on the Advisory Board.

Gary Peacock has been the Watershed Specialist of the York County Conservation District since 2000. He provides technical assistance which will improve watershed organization development and the quality and quantity of Pennsylvania's surface and groundwater resources.

Connie Schmotzer is the Consumer Horticulture Educator for Penn State Cooperative Extension. She has been working with native plants for over 15 years and serves on the Advisory Board for MAEscapes.

Mid-Atlantic Ecological Landscapes

2009 Classes

PENN STATE

an **OUTREACH** Program of the College of Agricultural Sciences, and [County Name Here] Cooperative Extension

MAEscapes Classes—2009

Spring Ephemerals

Instructor: Judy Bono

Date: May 7th, 2009

Time: 6:30-8:00 pm

Location: 765 Owl Valley Road, York, PA 17406

Tour the Bono property and learn about a special group of wildflowers. Spring ephemerals appear in early spring, flower, fruit, and die back before the trees unfurl their leaves.

Class limited to 25.

Creating Native Landscapes

Instructors: Mary Kline and Connie Schmotzer

Date: June 9, 2009

Time: 6:30 pm to 8:30 pm

Location: County Annex, 112 Pleasant Acres Rd., York, PA

This class takes you through the steps of creating a more natural landscape using native plants. Mary will discuss site analysis and what you need to look at when beginning your planning. Connie will share the process she and her husband went through to create gardens at their Spring Garden Township home.

Conserving Water In The Landscape

Instructor: Gary R Peacock

Date: Wednesday June 17, 2009

Time: 6:30-8:00 pm

Location: County Annex, 112 Pleasant Acres Rd, York, PA

This class describes the benefits and techniques of water-efficient landscaping. It includes several examples of successful projects and programs, as well as contacts, references, and a short bibliography.

Class limited to 30

Butterfly Gardening and Conservation

Instructor: Deb Carman

Date: August 4 Time: 12noon to 2:00 pm

Location: 4581 Nursery Road, Dover, PA 17315

Description of Class: Join Deb at her home to look for butterfly adults and larva. Learn more about the butterfly life cycle and behavior. See firsthand a variety of nectar plants and other adult food sources, as well as host plants for caterpillars. Class limited to 25.

Identifying Invasive & Exotic Plants

Instructor: Tim Falkenstein

Date: July 13, 2009

Time: 6:00 to 8:00 pm

Location: Rocky Ridge County Park – Power Line

Tim will cover the identification and ecology of invasive species in the local landscape, including origins, control methods, and effects on native flora. Class will be an easy walk along the power line cut and developed trails.

Class limited to 20

Wetland Delineation and Ecology

Instructor: Tim Falkenstein

Date: July 20, 2009

Time: 6:00 to 8:00 pm

Location: 3325 Overview Drive, York, PA

Description of class: Wetland Delineation Methodology (1987 Manual) using 3 parameter approach (vegetation, soils, hydrology) with hands on field exercise. We will also discuss the ecology and importance of wetland habitats. Participants will get muddy, so old clothes and boots are recommended.

Class limited to 10.

Propagating Native Perennials

Instructor: Jacquie Doyle

Date: July 30, 6:00pm to 8:00 pm.

Location: County Annex, 112 Pleasant Acres Rd, York, PA

Jacquie will guide you through the process of propagating native perennials from seed. Learn how to tell when seeds are ready, and how to collect, store and sow them. Class will concentrate on spring ephemerals and local genotypes.

Class limited to 15
